Support for I-215 Beltway / Airport Connector Interchange Project

Dear Mr. Cederburg:

On behalf of the Clark County Department of Aviation (CCDOA), I'd like to extend our strong support to Clark County Public Works (CCPW) for the I-215 / Airport Connector Interchange Project and their submission of a grant application for consideration of funding through the TIGER Discretionary Grant program. This project is a major regional transportation project that will have a significant positive impact to Southern Nevada.

CCDOA has worked with CCPW during the development of the I-215 Beltway / Airport Connector Interchange Project in order to design the interchange to be compatible with future improvements within the Airport Connector tunnel proposed by CCDOA. These improvements are necessary to meet the projected future travel demands of commuters through the Airport Connector Tunnel as well as visitor traffic to/from the airport. The I-215 / Airport Connector Interchange Project will directly improve the ingress and egress to/from McCarran International Airport and within Clark County.

CCDOA would like to extend our willingness to continue to work with CCPW on this project. If I may be of any further assistance, please contact me at (702) 261-5211.

Sincerely,

RANDALL H. WALKER
Director of Aviation
